

AFK Female Connector Housing

AFK Male Connector Housing

## AFK Connector Family

Connector housing family for use with Lear's AFK 1.5mm, 2.8mm and 4.8mm terminal system. The connectors housings are compact in design, provide a secondary terminal lock, locking arm protection and polarisation features. Inline connectors are available. The female connector housings are suitable for unit connections.

### Product Features

- Connector family for AFK 1.5mm, 2.8mm and 4.8mm terminal system
- Suitable for inline and direct unit connections
- Locking arm protection
- Integrated secondary terminal lock
- Different mechanical polarisations available

### Customer Advantages

- Robust connector design with locking arms protection
- Small package space by high terminal density
- Avoidance of incorrect assembly by mechanical and colour coding
- No need for additional parts as secondary lock is integrated into housing
- Ease of harness assembly by low terminal installation efforts
- Robust harness ensured by high terminal retention forces

**Status: In Production**
