

VKR/VKS Terminal

MKR/MKS Terminal

## Heavy Duty Terminal Series

*MKR/MKS* and *VKR/VKS* terminal series are designed to meet the highest demands in vibration (ref. DIN 72585) and environmental robustness. Its circular supporting spring guarantees reliable electrical performance in extreme applications as found on trucks or engine mount applications. Its round shape provides outstanding current ratings, the 360° terminal installation makes it easy to use in harness assembly.

### Product Features

- *MKR* 1.5mm and *VKR* 2.5mm round pin terminal system
- Closed box design for contact spring protection and outstanding robustness
- Circular contact spring support for reliable electrical performance

### Customer Advantages

- Connection system for use in extreme environments, e.g. engine mount applications, truck applications, etc.
- Reliable electrical performance in harsh environments
- System allows for connector designs with high terminal density
- Connector housings for heavy duty applications available

**Status: In Production**
